If you can please add Superman and Goku in the next update, I will give you guys 5 stars and change my review. Good graphics, and gameplay. It's a great game for those who like games like collisions. Less November 1, 2020 these people are very smart. They took advantage of the clash in the design of the clan mmo strategy game and removed all the disadvantages, including many favorite characters from the rest of the world, to create this game. I can't stop playing. I'll give it 10 stars if needed. This is my second review, the game is so great that I can't stop playing. It's easy to play and just fun. A clan clash with few defects. The third review, it's really great, my league name is less November 4, 2020 great game If you're interested, my league name is Mashiki Mori, but add superheroes like Superman, Iron Man or Bolt. There are glitches on servers 1 to 6, it's very hard to open equipment and epics in categories, and in that place in less places than September 3, 2020 this game is fun and easy to learn. The solo campaign was fun, but the wait to sweep only once was too long, the campaign was too short, and Hurd didn't give enough challenger coins. If the league needs a way to donate fragments or something, it's not due to a good enough way to win a medal to complete the donation. Stop after campaign 75 and need more achievements that are not really rewards for completing them. Less November 8, 2020 A very good game, but I've been playing since 4 months, so please increase your chances of summoning challengers or getting gold coins or your heroes, and I have less of your empty mechs on December 12, 2020, this is the best game I've ever played Hero. It's a lot of fun. Less December 6, 2020 great games, great games I play with heroes from all cartoon characters like DC, Wonders, Bleach, anime like Naruto, I just love it less November 22, 2020 Nice games. But you love this game, clan wars, clan games and give me only 5 stars pls to do it so less June 21, 2020 I have to use the money to buy this game, but it's fun, I can't wait for the next update I'll recommend it to those who want a supercell game or app that wants it. It is a great tower defense mobile game with idle construction.You can attack and defend enemies with your brain in this epic combat strategy game. Less June 20, 2020 It's a really great game. You can defend with attacks and armies and defenses. As your village gets stronger, it becomes easier to attack. I started playing and got hooked on it. I play all the time and I love the new army they add for the holidays. It's one of all my favorite games and it's fun to build one. Clash Royale, The Last Refuge and Rise of the Kingdom are all on my game top list. Today I find another one called The Kingdom Crush. The less these people are very smart. They took advantage of the clash in the design of the clan mmo strategy game and removed all the disadvantages, including many favorite characters from the rest of the world, to create this game. I can't stop playing. I'll give it 10 stars if needed. This is my second review, the game is so great that I can't stop playing. It's easy to play and just fun. A clan clash with few defects. The third review, it's really great, my league name is Masumori if you're interested in less great games, but add superheroes like Superman, Iron Man or Bolt. There are glitches on servers 1 to 6, it's very hard to open equipment and epics in categories and in that place it's the best game I've played heroes, especially legendary heroes who need to add heroes, need to add more heroes. The less great games I play with great, heroes from all the cartoon characters like DC, Wonders, Bleach, Naruto, I just love nice games less than that. But not only do you love this game because it gives you a clan war, a clan game and a 5-star pls that only I do it, so the less I love this game this game is addictive as well as it's fun and For the next update I recommend it to those who want a supercell game or app of this caliber. It is a great tower defense mobile game with idle construction. You can attack and defend enemies with your brain in this epic combat strategy game. Less it's a really great game. Clash Royale, The Last Refuge and Rise of the Kingdom are all on my game top list. Today I find another one called The Kingdom Crush. The less I've been playing this game for a while, the less it's keeping me busy. It's a fun strategic game. I lost my account because my iPod broke and that was where my account was and I just restored it and it's a paid game, but I can't stop playing love everything about it. I play almost all the top strategiesMafia City, Art of War, Rose Mobile and more. After all, I think this game is my favorite. And I recommend it to all of my friends. The less I absolutely love this game, but I think it would be cool if the clan mates could share a resource. One of my clan mates has more gold than they can handle and I am short of money. I think this will add neatly to the game. It's the best hero fight game I've played. It's not like the rise of the kingdom or lords mobile. And it is very different from the clash of clans and castles. The less I start getting bored of the village at night, the more I really go to the side other than the gem mines, so I make something a little cheaper so that you can see which players are in your clan like gametags are clan stuff or something. Kingdom Clash is a time killer, but I love it. Enjoy the art of war in it. Try to survive in the last shelter. Build a magnificent army for the kingdom with glorious guns. Less great game. Love it.
